CHAIRMAN'S STATEMENT

I hereby present to you our Company's Annual Report and Financial Statements for the year ended 31 March 2024.

The year under review was a challenging one for the business environment especially with the economic slowdown experienced in the country and the high forex rates. Despite these challenges, the Company was able to deliver positive results overall. The Board continues to explore opportunities for business with the aim of growing our Company and delivering returns to our shareholders. Our key focus during the year under review was on growing the aviation business which has resulted in positive results in the division. We believe this division will continue to gain traction in the medium to long term.

As a Board, we are committed to observing high standards of corporate governance and compliance with the regulations as issued by the Capital Markets Authority. During the year, we submitted out report on Corporate Governance Assessment, and we received positive feedback on areas of improvement. As a Board we will spearhead the implementation of the Authority's recommendations.

The Board and Management are committed to integrating sustainability into our business strategy and operations. As a diversified group with subsidiaries in various sectors including heavy vehicle maintenance, aviation, and retail, our goal is to drive positive environmental, social, and economic impacts while ensuring long-term business growth.

In conclusion, I would like to take this opportunity to thank the shareholders, Members of the Board, Management and Staff for their commitment and dedication to duty. I look forward to scaling greater heights together.

SAMUEL NJUGUNA KIMANI CHAIRMAN

CHIEF EXECUTIVE OFFICER'S STATEMENT

Dear Shareholder,

I am delighted to present to you my statement on our Company's performance for the year ended 31 March 2024. The year under review has been a challenging one but despite the harsh economic environment, the Company continues to grow its business.

NBV (Trading Business) Performance

The division contributed **Kshs. 412.73M** to the top line for the 12-month period up to 31st March 2024, compared to **Kshs. 308.33M** recorded in the previous year. The increase in revenue was mainly attributed to increased sales of sodium silicate products. Overall, the trading division contributed **45.48%** of the total consolidated Group revenue. We are continuously looking at other opportunities that this division can venture in, to grow profitability and enhance shareholder value.

Aviation Division (Air Direct Connect and Aviation Management Solutions) Performance

The Aviation Division contributed sales of **Kshs. 73.97M** for the 12-month period up to 31st March 2024, compared to **Kshs.34.8M** recorded for the previous year. The increase in income was attributed mainly to increased activity in AMS and ADC, including increased maintenance of tyres and additional leases at the hangar. Overall, the Aviation division contributed **8.15%** to the Group's total revenue.

The Aviation Division has been aggressive in the search for new business with various contracts being executed with different clients, as well as exploring new markets with a view to expanding its customer base. We expect performance in the aviation division to improve in the coming quarters as a result of increased business.

Automobile Division (Delta Automobile) Performance

The Automobile division contributed revenues of **Kshs. 420.87M.** for the 12-month period up to 31st March 2024, compared to **Kshs.550.64M** recorded in the previous year. The reduction in sales was mainly attributed to a slowdown in the transport business of its customers. Overall, the Automobile division contributed **46.37%** to the Group's total revenue.

Management continues to review the business with strategic initiatives aimed at increasing the service offerings, undertaking geographical expansion and leveraging on technology and innovation to establish advanced service stations in strategic locations. The division will also continue driving the EV agenda by establishing the EV motorcycle assembly.

I wish to thank all shareholders of NBV and to urge them to support NBV as our Company continues on its growth journey.

His technical proficiency, coupled with his multilingual capabilities, enables him to navigate complex financial environments and contribute effectively to organizational success. (*Appointed June 2024*)

Corporate Governance Statement for the Year Ended 31st March 2024

Approach to Corporate Governance

At Nairobi Business Ventures Plc (NBV), we acknowledge that in order to create and build sustainable value to our shareholders we must be committed to achieving the highest standards of corporate governance. NBV continues to implement the Corporate Governance Guidelines issued by the Capital Markets Authority (CMA).

The Board of Directors

The Board of Directors is the highest governance body responsible for NBV's strategic direction and activities. It remains accountable to the shareholders and stakeholders in ensuring that the Company complies with the laws and regulations and the highest standards of business ethics and corporate governance.

NBV Board is currently made up of ten (10) directors, with four (4) being independent, non-executive directors. The above structure satisfies the requirements of the Code of Corporate Governance for Issuers of Securities to the Public as well as The-Capital-Markets-Public-Offers-Listings-and-Disclosures-Regulations-2023.

The Board has clearly separated the roles of the Chairman and the Chief Executive Officer, and their respective functions are well defined. The Board has delegated management of the Company to the Chief Executive Officer (CEO) who is charged with the day to day operations of the Company. This has enabled the Board to provide strategic stewardship and oversight while carrying out these duties independently.

The Board has the following standing committees; Audit and Risk Committee, the Finance and Human Resources Committee and the Business Development and Strategy Committee. The roles and functions of the Committees are spelt out as under:

Audit and Risk Committee

The purpose of the Audit Committee is to

- Assist the Board in its oversight of the integrity of the Company's financial reporting, including supporting the Board in meeting its responsibilities regarding financial statements and the financial reporting systems and internal controls;
- Monitor, on behalf of the Board, the effectiveness and objectivity of internal and external auditors;
- Provide input to the Board in its assessment of enterprise risks and determination of risk appetite as part of the overall setting of strategy for the Company;
- Assist the Board in its oversight of the Company's risk management framework, monitoring its effectiveness through functional implementation in the 'second line of defence' and its performance to protect against and mitigate risks in the 'first line of defence'.

Members of the Committee are:

1. Mr. Lucas Meso – Chairman (Independent, Non-Executive)

2. Mr. Robert Nyasimi – Member (Independent, Non-Executive)

3. Ms. Rita Okuthe – Member (Independent, Non-Executive)

4. Mr. Naresh Ranpura – Member (Non-Executive)

Finance and Human Resources Committee

The purpose of the Finance and Human Resources Committee is to:

- assist the Board in reviewing the financial performance of the Company and its subsidiaries
- Guide the Board in the nomination and appointment of Board Members in line with the Company's nominations and appointments policy, ensuring that there is diversity on the board
- ensure there is a clear compensation and remuneration policy for all employees, Executive
 Directors and Non-Executive Directors of the Company. The Committee reviews
 compensation and makes recommendations on the remuneration of employees and Directors
 from time to time.
- Review the HR status of the company periodically while ensuring that the workforce is able to deliver on the Company's strategy.

The members of this Committee are:

1. Mr. Robert Nyasimi – Chairman (Independent, Non-Executive)

2. Mr. Lucas Meso – Member (Independent, Non-Executive)

3. Mr. Dhaval Soni – Member (Executive)

4. Mr. Naresh Ranpura — Member (Non-Executive)

Business Development and Strategy Committee

The purpose of the Business Development and Strategy Committee is to assist the Board in formulation of the Company's Strategic plan as well as monitoring and evaluation of the implementation of the plan, while ensuring that the Company's budget is consistent with the approved strategy. The Committee will also review and monitor the performance of the Company's subsidiaries and the Company as a whole, as well as report to the Board on investment and business development strategies, and recommend to the Board for the approval of investments and business development initiatives

The members of this Committee are:

1. Ms. Rita Okuthe – Chairman (Independent, Non-Executive)

2. Mr. Robert Nyasimi – Member (Independent, Non-Executive)

3. Mr. Lucas Meso – Member (Independent, Non-Executive)

4. Mr. Haresh Soni – Member (Executive)

5. Mr. Dhaval Soni – Member (Executive)

6. Mr. Umang Soni – Member (Executive)

All matters deliberated upon by the Committees are tabled before the full Board in the form of a Committee Report as recommendations for the Board's decision.

Audit & Accounting Functions

The Company's external Auditors, M/s Jessie & Associates, are members of the Institute of Certified Public Accountants (ICPAK). The Auditors comply with the International Auditing Standards. The Board has put in place measures to ensure that the external auditors maintain their independence in discharging their duties.

Board & Committees Meetings

The Board convenes at least four (4) times a year. The various board Committees also meet in the year to discuss various issues relating to the Company. The time, date, venue and agenda of the meetings are communicated in advance of the meetings. The Chairman manages the conduct of the meeting to ensure that open and constructive discussions are held between the Board and the management team. Ad hoc committee and Board meetings are convened to consider particular matters as and when required.

Board Remuneration Report

The Board of Directors approved a remuneration policy that is designed to create value for the Company's stakeholders while retaining and motivating an effective Board of Directors. It takes cognizance of the fact that the Company is in the early but crucial stages of its long term strategy, and as such, is below the industry average.

The Chairman of the Board is entitled to a taxable sitting allowance of Kshs. 40,000 per meeting while other Non-Executive Board Members are entitled to sitting allowance of Kshs. 25,000 per meeting. Committee Chairpersons are entitled to a sitting allowance of Kshs. 30,000 per meeting while Non-Executive Directors who are Committee Members are entitled to a sitting allowance of Kshs. 20,000 per meeting. The Chairperson is also entitled to an annual director's fee of Kshs. 250,000 while other Non-Executive Board Members are entitled to an annual director's fee of Kshs. 200,000.

Board Policies

The Board is governed by an approved Board Charter and Code of Conduct in carrying out its duties in the Company. Besides these governing policies, the Board has also put in place the following policies:

- 1. Board Nomination and Appointment Policy
- 2. Board Diversity Policy
- 3. Board Remuneration Policy
- 4. Risk Management Policy
- 5. Stakeholder Communication Policy
- 6. Whistle Blowing Policy
- 7. Dispute Resolution Policy

Sustainability and Corporate Social Responsibility

Nairobi Business Ventures PLC (NBV) is committed to integrating sustainability into its business strategy and operations. As a diversified group with subsidiaries in various sectors including heavy vehicle maintenance, aviation, and retail, our goal is to drive positive environmental, social, and economic impacts while ensuring long-term business growth. This report outlines our sustainability initiatives, performance, and goals across NBV and its subsidiaries for the financial year 2023-2024.

1. Governance and Ethics

At NBV, we recognize that strong governance and ethical business practices are the foundation of a sustainable business. Our Board and Management teams are dedicated to promoting transparency, accountability, and enhanced stakeholder engagement.

- **Governance Structure**: Our Board oversees NBV's sustainability strategy and integrates environmental, social, and governance (ESG) factors into decision-making.
- **Ethical Practices**: We have implemented robust anti-corruption, anti-bribery, and compliance policies across our operations.
- **Risk Management**: An internal audit and risk management framework ensures we proactively manage financial, operational, and ESG risks.

2. Environmental Stewardship

NBV and its subsidiaries are committed to reducing our environmental footprint through sustainable resource management, energy efficiency, and waste reduction initiatives.

- **Energy Efficiency**: Implementation of energy-saving technologies across our manufacturing plants and offices has reduced our carbon footprint by compared to the previous year.
- **Waste Management**: We have launched a zero-waste initiative aimed at reducing waste. Recycling programs are planned for operations.
- **Green Innovation**: As part of Delta Automobile Limited's strategic objective to assemble electric motorcycles, we are exploring sustainable transportation solutions for both B2B and B2C markets in East Africa.

3. Social Responsibility

We believe in creating value for society through responsible employment practices, community engagement, and impactful social initiatives.

- **Employee Welfare and Development**: NBV prioritizes employee well-being, diversity, and career growth. We have invested in training programs in our subsidiaries, with over 20% of our workforce benefiting from skill development initiatives in the past year.
- **Community Engagement**: We also collaborate with local institutions to provide internships and job opportunities for young professionals.
- **Health and Safety**: Ensuring a safe workplace is a priority. We have implemented robust safety protocols across all operations.

4. Economic Contribution

NBV and its subsidiaries continue to contribute to economic growth through responsible business practices, job creation, and local sourcing.

- Local Sourcing and Supplier Development: We prioritize sourcing from local suppliers, which has not only strengthened local economies but also reduced our supply chain carbon footprint.
- **Sustainable Financial Management**: Our financial discipline and focus on long-term value creation has ensured that NBV creates a strong basis for future growth and ultimately attractive investor returns, by supporting sustainable investments.

5. Future Goals and Commitments

As we move forward, NBV aims to deepen its commitment to sustainability by focusing on the following key areas:

- **Sustainable Products**: Expanding our portfolio of eco-friendly products and services, including electric vehicles, sustainable packaging solutions, and green construction materials.
- **Stakeholder Engagement**: Enhancing transparency through regular sustainability reporting and engaging stakeholders on key ESG issues.

Conclusion

Sustainability is integral to the vision and growth of Nairobi Business Ventures PLC. We are committed to driving positive change, not just within our organization, but also across the communities and environments where we operate. Through strategic initiatives and collaborations, we strive to build a resilient and sustainable future for all.

Nairobi Business Ventures PLC Report of the directors For the year ended 31st March 2024

The directors submit their report together with the audited financial statements for the year ended 31st March 2024.

Incorporation

The Company is domiciled in Kenya where it is incorporated as a public company limited by shares under the Kenyan Companies Act, 2015. The address of the registered office is set out on page 1.

Directorate

The directors who held office during the year and to the date of this report are set out on page 1.

Principal activities

The principal activities of the Company are that of trading in hardware materials and sodium silicate.

Results and dividends

The net profit for the year of Shs 17,875,693 (2023: Shs 8,634,948) has been deducted from accumulated losses. The directors do not recommend the declaration of a dividend for the year.

Statement as to disclosure to the Company's auditor

With respect to each director at the time of this report was approved:

(a) there is, so far as the person is aware, no relevant audit information of which the Company's auditor is unaware; and (b) the person has taken all the steps that the person ought to have taken as a director so as to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Terms of appointment of the auditor

Jessie & Associates continues in office in accordance with the company's Article of Association and Section 719 of the Companies Act, 2015. The director monitors the effectiveness, objectivity and independence of the auditor. The director also approves the annual audit engagement contract which sets out the terms of the auditor's appointment and the related fees.

By order of the board

Company Secretary

KEG, No. 2881

The same of the same of the

Nairobi 30 2024

The Kenyan Companies Act, 2015 requires the directors to prepare financial statements for each financial year that give a true and fair view of the financial position of the company as at the end of the financial year and of its profit or loss for that year. It also requires the directors to ensure that the company keeps proper accounting records that: (a) show and explain the transactions of the company; (b) disclose, with reasonable accuracy, the financial position of the company; and (c) enable the director to ensure that every financial statement required to be prepared complies with the requirements of the Companies Act, 2015.

The directors accept responsibility for the preparation and presentation of these financial statements in accordance with the International Financial Reporting Standards and in the manner required by the Kenyan Companies Act, 2015. They also accept responsibility for:

- i) designing, implementing and maintaining such internal control as they determine necessary to enable the presentation of financial statements that are free from material misstatement, whether due to fraud or error;
- ii) selecting suitable accounting policies and applying them consistently; and
- iii making accounting estimates and judgements that are reasonable in the circumstances.

Having made an assessment of the company's ability to continue as a going concern, the director is not aware of any material uncertainties related to events or conditions that may cast doubt upon the company's ability to continue as a going concern.

The directors acknowledge that the independent audit of the financial statements does not relieve them of their responsibilities.

Approved by the board of directors on 30^{*} 2024 and signed on its behalf by:

Director

Nairobi Business Ventures PLC Independent auditors' report to the members of Nairobi Business Ventures PLC For the year ended 31st March 2024

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Nairobi Business Ventures PLC set out on pages 6 to 26 which comprise the balance sheet as at 31st March 2024, the profit and loss account, statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Nairobi Business Ventures PLC as at 31st March 2024 and of its financial performance and cash flows for the year then ended in accordance with the International Financial Reporting Standards (IFRS's) and the Kenyan Companies Act, 2015.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISA"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *Institute of Certified Public Accountants Kenya Code of Ethics (ICPAK Code of Ethics)* which is consistent with the *International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code)*, together with other ethical requirements that are relevant to our audit of the financial statements in Kenya. We have fulfilled our other ethical responsibilities in accordance with these requirements. The IESBA Code is consistent with the International Ethics Standard Board for Accountant's Board of Ethics for Professional Accountants (part A and B). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matter

We have determined that there are no key audit matters to communicate in our report.

Other Information

The directors are responsible for the other information. Other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon, other than that prescribed by the Kenyan Companies Act, 2015, as set out below.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we have obtained prior to the date of this auditor's report, we conclude that if there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the requirements of the Kenyan Companies Act, 2015, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the director's either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Report on the audit of the Financial Statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the planning and performance of the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other matters prescribed by the Kenyan Companies Act, 2015

In our opinion the information given in the report of the directors on page 2 is consistent with the financial statements.

The engagement partner responsible for the audit resulting in this independent auditor's report is CPA Jitendra C. Patel -

NOTES

1. Summary of significant accounting policies

The significant accounting policies adopted in the preparation of these financial statements are set out below and these policies have been consistently applied to all the years presented, unless otherwise stated:

a) Basis of preparation

The financial statements are prepared on a going concern basis and in compliance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board. They are presented in Kenya Shillings (Shs), which is also the functional currency. The measurement basis used is the historical cost basis except where otherwise stated in the accounting policies below.

The financial statements comprise of a profit and loss account (statement of profit and loss), statement of comprehensive income, balance sheet (statement of financial position), statement of changes in equity, statement of cash flows and notes. Income and expenses, excluding the components of other comprehensive income, are recognised in the profit and loss account. Other comprehensive income is recognised in the statement of comprehensive income and comprises items of income and expense (including reclassification adjustments) that are not recognised in the profit and loss account as required or permitted by IFRS. Reclassification adjustments are amounts reclassified to the profit and loss account in the current period that were recognised in other comprehensive income in the current or previous periods. Transactions with the owners of the Company in their capacity as owners are recognised in the statement of changes in equity.

Measurement basis

The measurement basis used is the historical cost basis except where otherwise stated in the accounting policies summarised below.

Under the historical cost basis, assets are recorded at the amount of cash and cash equivalents paid or the fair value of consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds received in exchange for the obligation or, in some cases, at the amount of cash and cash equivalents expected to be paid to satisfy the liability in the normal course of business.

For those assets and liabilities measured at fair value, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. If the fair value of an asset or a liability is not directly observable, it is estimated by the Company using valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs (e.g. by use of the market comparable approach that reflects recent transaction prices for similar items or discounted cash flow analysis). Inputs used are consistent with the characteristics of the asset/liability that market participants would take into account.

Fair values are categorised into three levels in a fair value heirarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Transfers between levels of the fair value hierarchy are recognised by the Company at the end of the reporting period during which the change occurred.

1. Summary of significant accounting policies (continued)

b) New and revised standards

i) Adoption of new and revised standards

Five amendments to standards became effective for the first time in the financial year beginning 1st April 2023 and have been adopted by the Company. Neither of the amendments has had an effect on the Company's financial statements.

- Amendments to IFRS 17 Effective from 1st January 2023.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) Effective from 1st January 2023.
- Definition of Accounting Estimates (Amendments to IAS 8) Effective from 1st January 2023.
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12 Effective from 1st January 2023.
- International Tax Reform Pillar Two Model Rules (Amendments to IAS 12) Effective immediately.

ii) New and revised standards that have been issued but are not yet effective

The Company has not applied any of the new or revised Standards and Interpretations that have been published but are not yet effective for the year beginning 1st April 2023 and after, and the Directors do not plan to apply them until they become effective. Note 19 lists all such new or revised Standards and Interpretations, with their effective dates, none of which is expected to have a significant impact on the Company's financial statements in the period of initial application.

c) Translation of foreign currencies

On initial recognition, all transactions are recorded in the functional currency (the currency of the primary economic environment in which the Company operates), which is Kenya Shillings.

Transactions in foreign currencies during the year are converted into the functional currency using the exchange rate prevailing at the transaction date. Monetary assets and liabilities at the balance sheet date denominated in foreign currencies are translated into the functional currency using the exchange rate prevailing as at that date. The resulting foreign exchange gains and losses from settlement of such transactions and from year-end translation are recognised on a net basis in the profit and loss account in the year in which they arise, except for differences arising on translation of non-monetary assets measured at fair value through other comprehensive income, which are recognised in other comprehensive income.

d) Revenue recognition

The Company recognises revenue from direct sales of hardware material. The Company recognises revenue as and when it satisfies a performance obligation by transferring control of a product or service to a customer. The amount of revenue recognised is the amount the Company expects to receive in accordance with the terms of the contract, and excludes amounts collected on behalf of third parties, such as Value Added Tax.

e) Other income

Rental income from operating leases is recognised on a straight-line basis over the period of the lease.

Dividend income is recognised when the right to receive the payment is established.

Interest income is recognised on a time proportion basis using the effective interest method. Once a financial asset is identified as credit-impaired (see note 3 (a) (i)), the effective interest rate is applied to the amortised cost (net of impairment losses) in subsequent reporting periods.

1. Summary of significant accounting policies (continued)

f) Borrowing costs

Borrowing costs, net of any temporary investment income on those borrowings, that are attributable to acquisition, construction or production of a qualifying asset are capitalised as part of the asset. The net borrowing cost capitalised is either the actual borrowing cost incurred on the amount borrowed specifically to finance the asset; or in the case of general borrowings, the borrowing cost is determined using the overall weighted average cost of the borrowings on all outstanding borrowings during the year less any specific borrowings directly attributable to the asset and applying this rate to the borrowing attributable to the asset. Capitalisation of borrowing costs ceases when all activities necessary to prepare the qualifying asset for its intended use or sale are complete. All other borrowing costs are recognised in the profit and loss account in the year in which they are incurred.

g) Income tax

Income tax expense is the aggregate amount charged/(credited) in respect of current tax and deferred tax in determining the profit or loss for the year. Tax is recognised in the profit and loss account except when it relates to items recognised in other comprehensive income, in which case it is also recognised in other comprehensive income, or to items recognised directly in equity, in which case it is also recognised directly in equity.

Current tax

Current tax is the amount of income tax payable on the taxable profits for the year, and any adjustments to tax payable in respect of prior years, determined in accordance with the Kenyan Income Tax Act.

Deferred tax

Deferred tax is determined for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, using tax rates and laws enacted or substantively enacted at the balance sheet date and expected to apply when the asset is recovered or the liability is settled.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets or liabilities. However, for investment property that is measured using the fair value model, there is a rebuttable presumption that the carrying amount of the investment property will be recovered through sale.

Deferred tax liabilities are recognised for all taxable temporary differences except those arising on the initial recognition of an asset or liability, other than through a business combination, that at the time of the transaction affects neither the accounting nor taxable profit or loss.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised. Recognised and unrecognised deferred tax assets are reassessed at the end of each reporting period and, if appropriate, the recognised amount is adjusted to reflect the extent that it is has become probable that future taxable profits will allow the deferred tax asset to be recovered.

h) Share capital and share premium

Ordinary shares are recognised at par value and classified as 'share capital' in equity. Any amounts received over and above the par value of the shares issued are classified as 'share premium' in equity.

i) Dividends

Dividends on ordinary shares are recognised as a liability in the year in which they are declared. Proposed dividends are not recognised until they have been declared at an annual general meeting.

1. Summary of significant accounting policies (continued)

i) Financial instruments

Initial recognition

Financial instruments are recognised when, and only when, the Company becomes party to the contractual provisions of the instruments. All financial assets are recognised initially using the trade date accounting which is the date the Company commits itself to the purchase or sale.

Classification

The company classifies its financial instruments into the following categories:

- Financial assets that are held within a business model whose objective is to hold assets in order to collect contractual cash flows, and for which the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interests on the principal amount outstanding, are classified and measured at amortised cost;
- ii) Financial assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and for which the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are classified and measured at fair value through other comprehensive income.
- iii) All other financial assets are classified and measured at fair value through profit or loss.
- iv) Notwithstanding the above, the Company may:
 - a) on initial recognition of an equity investment that is not held for trading, irrevocably elect to classify and measure it at fair value through other comprehensive income
 - b) on initial recognition of a debt instrument, irrevocably designate it as classified and measured at fair value through profit and loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency.
- v) Financial liabilities that are held for trading (including derivatives), financial guarantee contracts, or commitments to provide a loan at below-market interest rate are classified and measured at fair value through profit or loss. The Company may also, on initial recognition, irrevocably designate a financial liability as at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency.
- vi) All other financial liabilities are classified and measured at amortised cost.

Financial instruments held during the year were classified as follows:

- Demand and term deposits with banking institutions, trade and other receivables, and investments in government securities were classified as at amortised cost:
- Long term investments in non-quoted shares were classified by irrevocable election on initial recognition as at fair value through other comprehensive income;
- Other investments in shares were classified as at fair value through profit or loss;
- Borrowings and trade and other liabilities were classified as at amortised cost.

- 1. Summary of significant accounting policies (continued)
- j) Financial instruments (continued)

Initial measurement

On initial recognition:

- i) Financial assets or financial liabilities classified as at fair value through profit or loss are measured at fair value.
- ii) Trade receivables are measured at their transaction price.
- iii) All other categories of financial assets and financial liabilities are measured at the fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the instrument.

Subsequent measurement

Financial assets and financial liabilities after initial recognition are measured either at amortised cost, at fair value through other comprehensive income, or at fair value through profit or loss according to their classification.

Interest income, dividend income, and exchange gains and losses on monetary items are recognised in profit or loss. Fair value is determined as set out in Note 1(a). Amortised cost is the amount at which the financial asset or liability is measured on initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

Impairment

The Company recognises a loss allowance for expected credit losses on debt instruments that are measured at amortised cost or at fair value through other comprehensive income. The loss allowance is measured at an amount equal to the lifetime expected credit losses for trade receivables and for financial instruments for which: (a) the credit risk has increased significantly since initial recognition; or (b) there is observable evidence of impairment (a credit-impaired financial asset). If, at the reporting date, the credit risk on a financial asset other than a trade receivable has not increased significantly since initial recognition, the loss allowance is measured for that financial instrument at an amount equal to 12-month expected credit losses. All changes in the loss allowance are recognised in profit or loss as impairment gains or losses.

Lifetime expected credit losses represent the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses represent the portion of lifetime expected credit losses that result from default events on a financial asset that are possible within 12 months after the reporting date.

Expected credit losses are measured in a way that reflects an unbiased and probability-weighted amount determined by evaluating a range of possible outcomes, the time value of money, and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Presentation

All financial assets are classified as non-current except those that are held for trading, those with maturities of less than 12 months from the balance sheet date, those which management has the express intention of holding for less than 12 months from the balance sheet date or those that are required to be sold to raise operating capital, in which case they are classified as current assets.

1. Summary of significant accounting policies (continued)

j) Financial instruments (continued)

Presentation (continued)

All financial liabilities are classified as non-current except those held for trading, those expected to be settled in the Company's normal operating cycle, those payable or expected to be paid within 12 months of the balance sheet date and those which the Company does not have an unconditional right to defer settlement for at least 12 months after the balance sheet date.

Derecognition/write off

Financial assets are derecognised when the rights to receive cash flows from the financial asset have expired, when the Company has transferred substantially all risks and rewards of ownership, or when the Company has no reasonable expectations of recovering the asset.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged or cancelled or expires.

When a financial asset measured at fair value through other comprehensive income, other than an equity instrument, is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment. For equity investments for which an irrevocable election has been made to present changes in fair value in other comprehensive income, such changes are not subsequently transferred to profit or loss.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet only when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

k) Leases

Leases under which the Company is the lessee

On the commencement date of each lease (excluding leases with a term, on commencement, of 12 months or less and leases for which the underlying asset is of low value) the Company recognises a right of-use asset and a lease liability.

The lease liability is measured at the present value of the lease payments that are not paid on that date. The lease payments include fixed payments, variable payments that depend on an index or a rate, amounts expected to be payable under residual value guarantees, and the exercise price of a purchase option if the Company is reasonably certain to exercise that option. The lease payments are discounted at the interest rate implicit in the lease. If that rate cannot be readily determined, the Company's incremental borrowing rate is used.

For leases that contain non-lease components, the Company allocates the consideration payable to the lease and non-lease components based on their relative stand-alone components.

The right-of-use asset is initially measured at cost comprising the initial measurement of the lease liability, any lease payments made on or before the commencement date, any initial direct costs incurred, and an estimate of the costs of restoring the underlying asset to the condition required under the terms of the lease.

Subsequently the lease liability is measured at amortised cost, subject to remeasurement to reflect any reassessment, lease modifications, or revised fixed lease payments.

1. Summary of significant accounting policies (continued)

k) Leases (continued)

Leasehold land and buildings are subsequently carried at revalued amounts, based on annual/triennial valuations by external independent valuers, less accumulated depreciation and accumulated impairment losses. All other right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment losses, adjusted for any remeasurement of the lease liability. Depreciation is calculated using the straight-line method to write down the cost of each asset to its residual value over its estimated useful life. If ownership of the underlying asset is not expected to pass to the Company at the end of the lease term, the estimated useful life would not exceed the lease term.

Increases in the carrying amount arising on revaluation are recognised in other comprehensive income and accumulated in equity under the heading of revaluation surplus. Decreases that offset previous increases of the same asset are recognised in other comprehensive income. All other decreases are charged to the profit and loss account. Annually, the difference between the depreciation charge based on the revalued carrying amount of the asset charged to the profit and loss account and depreciation based on the asset's original cost (excess depreciation) is transferred from the revaluation surplus reserve to retained earnings.

For leases with a term, on commencement, of 12 months or less and leases for which the underlying asset is of low value, the total lease payments are recognised in profit or loss on a straight-line basis over the lease period.

Leases under which the Company is the lessor

Leases that transfer substantially all the risks and rewards of ownership of the underlying asset to the lessee are classified as finance leases. All other leases are classified as operating leases. Payments received under operating leases are recognised as income in the profit and loss account on a straight-line basis over the lease term. The Company has not entered into any finance leases.

l) Provisions for liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

m) Post-employment benefit obligations

The Company and its employees contribute to the National Social Security Fund (NSSF), a national defined contribution scheme. Contributions are determined by local statute and the Company's contributions are charged to the profit and loss account in the year to which they relate.

n) Short term employee benefits

The estimated monetary liability for employees' accrued annual leave entitlement at the balance sheet date is recognised as an employment cost accrual.

1. Summary of significant accounting policies (continued)

o) Property, plant and equipment

All categories of property, plant and equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure directly attributable to the acquisition of the assets. Computer software, including the operating system, that is an integral part of the related hardware is capitalised as part of the computer equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that it will increase the future economic benefits associated with the item that will flow to the Company over those originally assessed and the cost of the item can be measured reliably. Repairs and maintenance expenses are charged to the profit and loss account in the year in which they are incurred.

Depreciation is calculated using the reducing balance method to write down the cost of each asset to its residual value over its estimated useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item, is depreciated separately.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

p) Investment property

Investment property is property held to earn rentals or for capital appreciation or both. Investment property, which can include right-of-use assets, is initially recognised at cost including the transaction costs. It is subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated using the straight-line method to write down the cost of the property to its residual value over its estimated useful life. Gains or losses on disposal are recognised in profit or loss.

Subsequent expenditure on investment property where such expenditure increases the future economic value in excess of the original assessed standard of performance is added to the carrying amount of the investment property. All other subsequent expenditure is recognised as an expense in the year in which it is incurred.

q) Intangible assets

Software licence costs and computer software that are not an integral part of the related hardware are initially recognised at cost, and subsequently carried at cost less accumulated amortisation and accumulated impairment losses. Costs that are directly attributable to the production of identifiable computer software products controlled by the Company are recognised as intangible assets. Amortisation is calculated using the straight line method to write down the cost of each licence or item of software to its residual value over its estimated useful life.

r) Impairment of non-financial assets

Non-financial assets that are carried at amortised cost are reviewed at the end of each reporting period for any indication that an asset may be impaired. If any such indication exists, an impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

1. Summary of significant accounting policies (continued)

s) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in first-out (FIFO) method. The cost of finished goods and work in progress comprises raw material, direct labour, other direct costs, variable production overheads and an allocation of fixed production overheads based on normal operating capacity, but exclude borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

t) Cash and cash equivalents

Cash and cash equivalents include cash in hand and demand and term deposits, with maturities of three months or less from the date of acquisition, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, net of bank overdrafts. In the balance sheet, bank overdrafts are included as borrowings under current liabilities.

2. Significant judgements and key sources of estimation uncertainty

In the process of applying the accounting policies adopted by the Company, the directors make certain judgements and estimates that may affect the amounts recognised in the financial statements. Such judgements and estimates are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the current circumstances. However, actual results may differ from those estimates. The judgements and estimates are reviewed at each financial reporting date to ensure that they are still reasonable under the prevailing circumstances based on the information available, and any revisions to such judgements and estimates are recognised in the year in which the revision is made.

No significant judgements have had to be made by the directors in preparing these financial statements.

3. Nature and extent of risks arising from financial instruments

a) Financial risk management

The Company's activities expose it to a variety of financial risks including credit, liquidity and market risks. The Company's overall risk management policies are set out by the board and implemented by the management, and focus on the unpredictability of changes in the business environment and seek to minimise the potential adverse effects of such risks on the Company's performance by setting acceptable levels of risk. The Company does not hedge against any risks.

i) Credit risk and expected credit losses

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Credit risk mainly arises from financial assets, and is managed on a company-wide basis.

Credit risk on financial assets with banking institutions is managed by dealing with institutions with good credit ratings and placing limits on deposits that can be held with each institution. The Company carries out its own assessment of credit risk before investing in corporate bonds, and updates such assessments at each reporting date.

Nature and extent of risks arising from financial instruments (continued)

a) Financial risk management (continued)

i) Credit risk and expected credit losses (continued)

Credit risk on trade receivables is managed by ensuring that credit is extended to customers with an established credit history. The credit history is determined by taking into account the financial position, past experience and other relevant factors. Credit is managed by setting a credit limit and credit period for each customer. The utilisation of the credit limits and the credit period is monitored by management on a monthly basis.

In assessing whether the credit risk on a financial asset has increased significantly, the Company compares the risk of default occurring on the financial asset as at the reporting date with the risk of default occurring on that financial asset as at the date of initial recognition. In doing so, the Company considers reasonable and supportable information that is indicative of significant increases in credit risk since initial recognition and that is available without undue cost or effort. There is a rebuttable assumption that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due.

For these purposes default is defined as having occurred if the debtor is in breach of contractual obligations, or if information is available internally or externally that suggests that the debtor is unlikely to be able to meet its obligations. However, there is a rebuttable assumption that that default does not occur later than when a financial asset is 90 days past due.

If the Company does not have reasonable and supportable information to identify significant increases in credit risk and/or to measure lifetime credit losses when there has been a significant increase in credit risk on an individual instrument basis, lifetime expected credit losses are recognised on a collective basis. For such purposes, the Company groups financial assets on the basis of shared credit risk characteristics, such as:

- type of instrument
- industry in which the debtor operates
- nature of collateral.

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit impaired include observable data about the following events:

- significant financial difficulty of the debtor
- a breach of contract
- it is probable that the debtor will enter bankruptcy
- the disappearance of an active market for the financial asset because of financial difficulties.

The Company has not provided for expected credit losses from exposure to credit risk on financial assets (trade receivables) held at the balance sheet date because all trade receivables were due from related parties and have subsequently been received after the balance sheet date.

3. Nature and extent of risks arising from financial instruments (continued) [Tailor as appropriate]

ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The board has developed a risk management framework for the management of the Company's short, medium and long-term liquidity requirements thereby ensuring that all financial liabilities are settled as they fall due. The Company manages liquidity risk by continuously reviewing forecasts and actual cash flows, and maintaining banking facilities to cover any shortfalls.

The table below summarises the maturity analysis for financial liabilities to their remaining contractual maturities. The amounts disclosed are the contractual undiscounted cash flows.

	Less than one month	Between 1-3 months	Between 3-12 months	Over 1 year
	Shs	Shs	Shs	Shs
31st March 2024				
Trade and other payables	151,905,000	_	-	_
31st March 2023				
Trade and other payables	22,657,797	-	-	-

iii) Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market price and comprises three types of risks: currency risk, interest rate risk and other price risk.

Interest rate risk

The Company has no borrowings and thus changes in interest rate have no effect.

Currency risk

Currency risk arises on financial instruments denominated in foreign currency. The Company's has trade receivables that are denominated in foreign currency.

The significant exposure in respect of each currency is as follows:

 Vear ended 31st March 2024
 US\$ Shs

 Trade receivables

 Vear ended 31st March 2023

 Trade receivables (US\$ 769,492)
 85,870,852

Other price risk

The Company is not exposed to any price risk as it does not hold any equity investments.

b) Capital management

The Company's objective in managing its capital is to ensure that it supports the development of its business and is able to continue as a going concern, while at the same time maximising the return to its shareholders. The Company is not subject to any external capital requirements.

b)	Capital management (continued)	2024	2023

16. Deferred income tax

Deferred income tax is calculated using the enacted tax rate of 30% (2023: 30%)

Deferred tax liabilities/(assets), and the deferred tax charge/(credit) in the profit and loss account are attributable to the following items:

	Property, plant and equipment Shs	Tax losses carried forward Shs	Total Shs
1st April 2022 Charge to profit or loss for the year	(3,933)	(36,754,135) 6,597,205	(36,758,068) 6,597,589
1st April 2023 Charge to profit or loss for the year	(3,549) 34,238	(30,156,930) 8,169,640	(30,160,479) 8,203,878
31st March 2024	30,689	(21,987,290)	(21,956,601)

The deferred tax asset has been recognised based on management's projections of future taxable profits that will be available against which the deductible temporary differences and tax losses can be utilised. Under the Kenyan Income Tax Act, with effect from 1st July 2021, the tax losses of Shs. 73,290,969 (2023: Shs. 100,523,099) can be carried forward indefinitely.

17. Related party transactions

Delta International FZE, incorporated in the United Arab Emirates, owns 30.66% of Nairobi Business Ventures PLC shares. Nairobi Business Ventures PLC is also related with Shreeji Enterprises (Kenya) Ltd, Shreeji Chemicals Ltd, Eastern Chemical Industries Ltd and Shreeji Glass Uganda Ltd through common shareholding and common directorships.

The following transactions were carried out with related parties.
